Market Purpose

The Santa Cruz River Farmers' Market strives to build community, foster local food businesses, and increase access to fresh healthy food for all. SCRFM's highest goal is to create a market community where everyone feels welcome and valued – especially people of color, folks using public assistance benefits, and all others who have historically been excluded from local food venues or economic opportunities because of their socio-economic status, citizenship status, or identity. SCRFM accepts public assistance benefits, including Supplemental Nutrition Assistance Program (SNAP) benefits and Arizona Farmers' Market Nutrition Program (AZFMNP) benefits, and works in partnership with vendors to make them easy for customers to utilize in the market space. We aim to create a supportive and thriving market space for our vendors and customers in which all people feel welcome and have space to build community.

Vendor Acceptance

In line with the purpose of the Market, priority is given to vendors whose produce is locally and sustainably grown whose products use locally-sourced ingredients, can be certified as a local grower through the Arizona Farmers' Market Nutrition Program (AZFMNP), and have products eligible for purchase with SNAP benefits. Farmers and vendors with limited experience who grow locally and sustainably are welcome to sell at our market, especially those who identify in any historically marginalized groups (e.g. BIPOC or LGBTQIA+) and those who live in the surrounding area. Farmers and vendors are responsible for compliance with laws, permits, and licenses required by the City of Tucson, Pima County, State of Arizona, and United States Department of Agriculture. Vendors must complete an Application form annually, and are notified of acceptance or other status by Farmers' Market staff.

Please complete this form and return it to the contact information below, along with proof of all licenses, permits, certifications, and crop plan (if applicable).
